Opposed to Lithium Battery Storage Facility, San Juan Capistrano

I am strongly opposed the proposed battery energy storage system(BESS) facility.

1. This should not be constructed near residential, hillside homes due to the chemical fire hazard.
2. Increase homeowners insurance or cancellations of policies.
3. Very difficult to extinguish lithium battery fires as fire will travel upward on hillside with heavy vegetation.
4. Businesses, schools, & homes would be in immediate danger.
5. Air pollution, contamination of the soil & water as the nearby San Juan Creek Watershed flows to the Pacific Ocean.
