**Mr**

I am writing to express my concern regarding the planned installation of 13 acres of lithium batteries in our community. While I understand the importance of advancing renewable energy solutions, I believe that the installation of such a large-scale battery system poses significant fire and pollution threats that need to be carefully considered.

1-Risk of Thermal Runaway:

2-Toxic Chemicals

Thank you for your attention to this matter. I look forward to your response and to working together to ensure the safety and well-being of our community.

Sincerely,

Ali Mahjoub
