Details from Monday workshop

So to summarize my own (homeowner) takeaways from the July 22 IRA workshop, Phase 1 may begin Oct or Nov, and seems to be more or less a resumption of the previous CA rebates which ran out of funding in 2022.

That is, heat pump HVAC at an approx \$4k rebate level, no rebates yet for electrical system upgrades, and no retroactive rebates for 2022-24 work completed prior to the fall 2024 Phase 1 start date.

Is that a fair summary of the Monday presentation? Happy to be corrected, or find a more accurate summary.
