## **Compass storage project**

I am not in agreement with building a lithium battery storage facility here or ANY WHERE where there is potential fire hazard. This area or in close proximity there is a Peace Farm in which special needs children are engaged in - whether they help plant or help reap the harvest. By having this storage facility in that close proximity would surely shut down the farm. There are so many other areas less populated where they are not impinging on the homeowners and a menace to fire safety.
