Lithium battery storage facility

Hello,

I am vehemently opposed to the consideration of building a lithium battery storage facility near the 5 fwy.

This area is surrounded by scrub and is very dry in the summers. I don't care how much this area gets "secured" the fire hazard is too great, I have already experienced an increase in my homeowners insurance due to potential fire hazards, i feel having something like this in our backyard would add to this. I urge the commission to consider other locations away from housing and major freeway thoroughfare.
