## **I am highly opposed to the battery storage in San Juan Capistrano**

I am a resident of Laguna Niguel, not far from the proposed site of a new lithium battery storage area. I have researched this proposal and attended city council meetings and it seems irresponsible to put that type of facility in this location, so close to residential areas. The risk is not worth the potential benefit of such a facility. We have already dealt with destructive fires in our city. We don't need any other factors raising the potential for more fires and destruction of homes and property. Please side with the cities of San Juan Capistrano and Laguna Niguel and do not allow this facility in this location.
