NO to the Proposed BESS Facility in San Juan Capistrano

To Whom It May Concern,

As a local resident, I am DEEPLY CONCERNED that a BESS facility is being proposed in San Juan Capistrano, near my home. Lithium-iron batteries can explode and can emit toxic gasses if overheated. In fact, battery fires are not that unusual! The close proximity of homes to this proposed BESS is TOTALLY UNACCEPTIBLE. Local residents, including young children such as my twin 14 year olds, will be at risk for serious health issues in the event they're exposed to such toxic fumes. Please do the right thing... most local residents I've spoken to do not want this either! This is a public safety issue, pure and simple! Thank you for your understanding.

Kind regards,

Joseph Konstantarakis MD
