## **Opposition to Compass Lithium Ion Battery storage project**

As a resident of Laguna Niguel, a neighboring community to the proposed compass site. Even though I am a strong supporter of clean energy and understand the need to provide a power grid to support these goals, this project is ill considered.

That said, projects like this proposed Compass plant, need to be built in areas that are not heavily populated. This site, on the contrary, is heavily populated, right next to freeway and an active rail track, and home to diverse wildlife and Flora. There are many other locations that would be more suited for this type of project.
