Opposition to Lithium Ion Battery Storage Facility Location

As a citizen, resident, and constituent I am opposed to the proposed Compass Energy Storage Project on Avenida Pico in San Clemente, Ca. This type of hazardous material storage should not be located in a heavily populated, urban, residential area. This area is still dealing with the storage of spent nuclear fuel from the decommissioned San Onofre Nuclear Power Plant. San Clemente and its surrounding area should not be used as a dumping ground for hazardous materials. Please consider alternative remote sites. Thank you for your time.
