## HEEHRA Rebates Program Paused

In light of the continued pause in federal funding by President Trump's January 20, 2025, Executive Order (Section 7, Unleashing American Energy), the California Energy Commission (CEC) is pausing the state's administration of the federal Home Electrification and Appliance Rebates (HEEHRA) Program until the Trump Administration provides additional information on the funding for this program.

The program has stopped accepting and processing new income verifications and rebate reservations for single family and multifamily homes. California intends to honor approved reservations as the availability of federal funding allows. The state is working to resolve ongoing issues accessing federal payments. We will provide more information when it becomes available from the federal government.
