CEC-057 (Revised 1/21)

California Resumes its HEEHRA Program for Home Energy Rebates

California is resuming its Home Electrification and Appliance Rebates (HEEHRA) Program, funded by the federal Inflation Reduction Act (IRA) and managed by the California Energy Commission (CEC).

The CEC is distributing the first phase of funds for this home energy rebate program through TECH Clean California. The program will continue to process pre-approved HEEHRA rebate applications and reservation requests that have already been submitted on a first-come, first-served basis as federal funds are made available. Reservation requests submitted prior to the pause will receive priority. Consumers who have questions about the status of their reservation request or rebate should contact their contractor or TECH Clean California at tech.info@energy-solution.com.

The program will reopen to new income verifications and rebate reservations in the coming weeks. Homeowners interested in a rebate should go to TECH Clean California's HEEHRA Program page (<https://techcleanca.com/incentives/heehrarebates/>) for information on eligible equipment, application process and income qualifications. Contractors can be found at Switch Is On (<https://www.switchison.org/ca>).

Note: Due to high demand, rebates funds for single-family homes in Northern California are almost fully reserved. Visit TECH Clean California's HEEHRA Program Page (<https://techcleanca.com/incentives/heehrarebates/>) for more information.

For questions or issues, please contact tech.info@energy-solution.com, IRAresidentialenergyrebates@energy.ca.gov, or 916-343-8471.
