Re: Name Clarification: Sutter Power Project (97-AFC-2C)

Dear Mr. Najarian:

The purpose of this letter is to discuss a minor name clarification issue related to the Sutter Power Project (97-AFC-2C).

The April 26, 2000 Order confirming the name change for this facility incorrectly references "Calpine Construction Financing Company, L.P." The correct name is "Calpine Construction Finance Company, L.P." Calpine Construction Finance Company, L.P. is the correct name of the entity that owns the project and agrees to comply with all the Conditions of Certification, as amended by the Commission. As owner of the Sutter Power Project, Calpine Construction Finance Company, L.P., is also the entity seeking approval of the pending amendment for the Project.

We request that the Commission please note the correct ownership name, Calpine Construction Finance Company, L.P. and refer to the correct name for any documents concerning the pending amendment before the Commission.

Thank you. Please call if you have any questions.

Very truly yours,

Jacob M. Rudisill
Senior Vice President
