Docketed Date:	2/3/2026

February 3, 2026

Subject: Repeat Application for Confidentiality Under 20 C.C.R. section 2505(a)(5)

Dear Executive Director Bohan:

On November 18, 2024, Southern California Edison Company submitted Electricity Demand Data in the California Energy Commission's (CEC's) Docket 24-IEPR-3. Among other things, that data included private and confidential information regarding a small number of industrial customers. Because that data is confidential, SCE accompanied its submittal with an Application for Confidential Designation. The CEC granted that application on March 27, 2025, finding "The applicant has made a reasonable claim that the portions of the records identified above, which contain information on customer energy consumption, can be maintained as confidential indefinitely."

On February 3, 2026, SCE submitted data in 25-IEPR-03 that I certify under penalty of perjury is the same or substantially similar to the data the CEC previously designated as confidential. No facts or circumstances have changed. SCE, therefore, respectfully submits this repeat application for confidential designation on the same grounds as the data the CEC agreed apply to this data.

Thank you,

Brent Buffington
