Subject: Huntington Beach Energy Project (12-AFC-02C), Petition for Post-Certification Amendment: Installation of Four Diesel-Fueled Emergency Internal Combustion Engine Generators

Dear Mr. Douglas,

On behalf of AES Huntington Beach Energy, LLC (Project Owner), please find attached the *Petition for Post-Certification Amendment: Installation of Four Diesel-Fueled Emergency Internal Combustion Engine Generators* for the Huntington Beach Energy Project (HBEP, 12-AFC-02C). This petition for post-certification license amendment (Petition to Amend [PTA]) proposes to install four identical 744 brake-horsepower emergency diesel-fired internal combustion engine (ICE) generators to provide emergency power supply to critical plant equipment in the combined cycle gas turbine power block during the gas turbine shutdown periods in the event of an electrical emergency. The engines of these ICE generators are U.S. Environmental Protection Agency Tier 4 certified. No significant changes to the existing HBEP equipment or operations are proposed.

As demonstrated in this PTA, the proposed project modification will not result in any significant environmental impacts, and the project, as modified, will continue to comply with all applicable laws, ordinances, regulations, and standards.

If you have any questions regarding this submittal, please contact me at (562) 493-7835 or charlene.he@aes.com.

Sincerely,

Charlene He
