Notice of Availability of

Local Publicly Owned Electric Utilities Renewables Portfolio Standard Compliance Period 4 (2021-2024) Verification Results Reports – Group 2

Docket No. 24-RPS-01

The California Energy Commission (CEC) adopted 18 (Group 2) *Renewables Portfolio Standard 2021-2024 Verification Results Reports for Local Publicly Owned Electric Utilities* (*Verification Results Reports*) at its October 19, 2026, Business Meeting.[1]

These finalized *Verification Results Reports* provide the results of renewable energy procurement claims submitted by publicly owned utilities (POUs) for the Renewables Portfolio Standard (RPS) Compliance Period 4 (CP 4), covering the years 2021-2024. The *Verification Results Reports* are available on the CEC website at: https://www.energy.ca.gov/programs-and-topics/programs/renewables-portfolio-standard/renewables-portfolio-standard/renewables.

The *Enforcement Procedures for the Renewables Portfolio Standard for Local Publicly Owned Electric Utilities* establish the rules and procedures by which the CEC assesses a POU's compliance with RPS procurement requirements.[2] The methods used by the CEC to verify procurement claims for RPS program participants are generally described in the *Renewables Portfolio Standard Eligibility Guidebook,* and further explained in the *Renewables Portfolio Standard Verification Methodology Report, Fourth Edition.* These documents can be found at https://www.energy.ca.gov/programs-and-topics/programs/renewables-portfolio-standard/renewables-portfolio-standard.

[1] Group 1's 25 POUs Verification Results Reports were adopted at the May 13, 2026, CEC Business Meeting and posted on the CEC website: Commission Final Verification Result Reports for Compliance Period 4.

[2] The *Enforcement Procedures for the Renewables Portfolio Standard for Local Publicly Owned Electric Utilities* regulations are set forth in 20 CCR §§ 1240 and 3200–3208. Available at https://www.energy.ca.gov/media/6111.

The verification results included in the *Verification Results Reports* provide the following information, as applicable, for each of the 18 Group 2 POUs that reported procurement claims for CP 4:

- The POU's procurement target and portfolio balance requirements and limitations.
- The amount of eligible renewable energy credits (RECs) retired, and the amount applied to meet the compliance period requirements, both shown by Portfolio Content Category classification and Long-Term Procurement Requirement classification, as applicable.
- Any deficits in meeting RPS procurement requirements for the compliance period.
- Any optional compliance measures being applied by the POU for the compliance period.
- A calculation of excess procurement accumulated in this compliance period.
- A summary of the POU's excess procurement and historic carryover, if any, including any prior balance, the amount accumulated and used in the current compliance period, and remaining balance.
