# SMUD's GREENERGY<sup>SM</sup>

**Giving you the power to choose.**

## *What is Greenergy?*

Greenergy is a membership program developed by SMUD that offers you a choice of supporting energy created by green resources. Green resources are those that are restored by nature like solar, wind, and water.

## *Help the Environment*

When you say "yes" to Greenergy you're helping to reduce emissions generated through the burning of fossil fuels like coal. And, to further the commitment to green technology, SMUD has agreed to match 40% of all Greenergy premiums with construction of new green power plants.

## **DID YOU KNOW?**

- ◆ Since 1997, the impact Greenergy members have made in the community is equivalent to removing 22,667 automobiles a year from our roads, or planting 35,040 acres of trees.\*
