RE: Independent Audit/Verification of 2001 Annual Power Content Label and Annual Report

Dear Mr. Orta:

Strategic Energy, LLC has a renewable electricity product, Strategic Greenergy, registered with the CEC. During calendar year 2002 we didn't contract with any customers to sell them Strategic Greenergy and also did not sell any Strategic Greenergy. Therefore, we did not make any specific purchases in order to be able to supply Strategic Greenergy. Also, we informed you that we sold our standard offer product to customers in California, which had to same power mix as the California power mix. Due to the above stated we understand that it would not be necessary to have an Independent Audit of these reports.

We did sell our standard offer product to customers in California in calendar year 2002, which has the same power mix as the California power mix. We have enclosed a copy of the Power Content we distribute for that product.

We are aware that this report was due in June and will be diligent with future filings. If you have any questions or comments regarding the above please contact me.

Sincerely,

Diane M. Cammerata
