Dear [REDACTED]

Thank you for supporting SMUD's Greenergy program. You've helped us make 2002 a record year with enrollment topping 18,000, the development of new solar-covered parking structure at Arden Fair Mall, and national recognition from the Federal Environmental Protection Agency for innovative marketing efforts.

Once a year, California law requires retail suppliers of electricity to disclose fuel source information to consumers. Below you'll find an annual Power Content Label for all Greenergy Products. By referring to the Power Content Label, you can compare our mix to the standard California power mix and see for yourself just how green Greenergy really is.
