AND DEVELOPMENT COMMISSION

In the Matter of:

Annual Reconciliation of Retailer Claims

Docket 00-SB-1305

<b>DOCKET</b>	
00-SB-1305	
DATE	OCT 19 2002
RECD.	NOV 15 2005

NOTICE OF AVAILABILITY OF REPORT ENTITLED  
**RECONCILIATION OF RETAILER CLAIMS, 2004**

Senate Bill 1305 (SB 1305, Sher, Chapter 796, Statutes of 1997) requires retail electricity providers to disclose specific information to their retail customers and to report detailed purchase and sales information to the California Energy Commission. The statute also requires the Commission to prepare an annual report comparing the information retail providers disclose to consumers with the purchase and sales information they provide to the Commission and information provided by electricity generators. The report is due to the CPUC by October 15 of each year pursuant to SB 1305.

This report, **Reconciliation of Retailer Claims, 2004**, adopted by the Commission at its October 19, 2005, Business Meeting, states that 26 retail providers claimed specific purchases from 739 different generating facilities in 2004. These purchases total about 174,939 gigawatt-hours. The report concludes that in 2004, retail providers claiming specific purchases appear to have purchased sufficient amounts of renewable power to justify the claims made to their customers. This report includes an appendix that indicates the progress of retail providers in fulfilling SB 1305 Program requirements along with the renewable content of retail providers that submitted Annual Reports.

Copies of the report (Publication Number CEC-300-2005-021) may be downloaded from the Commission's web site at [www.energy.ca.gov/sb1305/](http://www.energy.ca.gov/sb1305/), or by contacting the Commission's Publications Office at (916) 654-5200.
