Purpose

The staff of the Energy Commission will conduct a Data Response and Issues Resolution Workshop for the proposed Walnut Creek Energy Park. The workshop will allow the applicant, staff, interested agencies, and the public to discuss the applicant's responses to staff's data requests issued on March 10, 2006, and to work toward resolving project issues. Subjects to be discussed include: Air Quality, Alternatives, Cultural Resources, Noise, Socioeconomics, Soil and Water Resources, Traffic and Transportation, Visible Plume Modeling, Visual Resources, and Waste Management. Other areas as necessary may be discussed.

Background

On November 22, 2005, Walnut Creek Energy, LLC, a wholly-owned subsidiary of Edison Mission Energy, filed an Application for Certification for the Walnut Creek Energy Park, seeking approval from the Energy Commission to construct and operate a nominal 500 megawatt simple-cycle power plant in the City of Industry, Los Angeles County. On February 1, 2006, the Energy Commission accepted the AFC as complete, which initiated Energy Commission staff's independent review of the proposed project. The proposed project site is an 11.48-acre parcel owned by the City of Industry at 911 Bixby Drive.
