September 2006

Dear Vernon Customer:

Senate Bill 1305 (SB 1305) requires all municipal utilities, as it does all other electric service providers, to disclose information to their customers regarding the energy resources used to generate the electricity they sell. In order to comply with the mandates of this legislation, the City of Vernon's Light and Power Department adopted the "Power Content Label" created by the California Energy Commission. The label below provides Vernon customers with information about the energy resources used to generate the electricity that is sold by the City of Vernon's Light and Power Department. An updated "Power Content Label" will be mailed to you quarterly.

Note that the Vernon power mix shown below is the same as that of the 2005 California Power Mix. This is a "default" projection that may be used by providers such as Vernon that do not claim to provide a higher percentage of renewable energy resources than the California Power Mix. If you have questions regarding this information, please contact Daniel E. Garcia, at 323-583-8811, extension 312.

POWER CONTENT LABEL		
Energy Resources	City of Vernon Light and Power Department Power Mix* (default projection)	2005 CA Power Mix** (for comparison)
Eligible Renewable	5%	5%
-- Biomass & waste	<1%	<1%
-- Geothermal	4%	4%
-- Small hydroelectric	1%	1%
-- Solar	<1%	<1%
-- Wind	<1%	<1%
Coal	38%	38%
Large Hydroelectric	24%	24%
Natural Gas	33%	33%
Nuclear	0%	0%
Other	0%	0%
TOTAL	100%	100%
* 0 % of City of Vernon power is specifically purchased from individual suppliers.		
** Percentages are estimated annually by the California Energy Commission based on electricity sold to California consumers during the previous year.		
For specific information, contact the City of Vernon Light and Power Department at 323-583-8811, extension 312. For general information about the Power Content Label, contact the California Energy Commission at 1-800-555-7794 or www.energy.ca.gov/consumer .
