REPORT OF CONVERSATION Page 1 of 1

**Energy Facilities Siting and
 Environmental Protection
 Division**

FILE: 05-AFC-2

PROJECT TITLE: Walnut Creek Energy Park (WCEP)

<input checked="" type="checkbox"/> Telephone	286-0278	<input type="checkbox"/> Meeting Location:	
NAME:		DATE:	11/17/06
		TIME:	2:00 PM
WITH:	Doug Davy		
SUBJECT:	Additional Transmission Lines		

COMMENTS:

Staff spoke with Dr. Doug Davy of CH2MHill. Staff called to discuss additional proposed transmission line locations for the WCEP project. The proposed locations were identified in Figure WSQ-11, in data response Supplement IV, docketed November 13, 2006.

Figure WSQ-11 identified two additional transmission line routes. It appeared that the some of the area crossed by these two lines had not been surveyed for cultural resources. Dr. Davy stated that the project was requesting that the route of the original line plus the two new lines be permitted. He said that he would try to arrange for a survey before publication of the PSA. He will call to provide a date when Clint Helton is available to conduct the survey.
