Subject: FW: Starwood Completeness Determination

I sent this email out last Thursday. The completeness letter is with my supervisor for review. I am off next week, so unless there is some sort of major issue that management sees that I may have missed in regards to the project's completeness, I will make sure the completeness letter gets signed and mailed no later than Friday afternoon. I will email you a copy of the signed letter. Let me know if you need anything else. Thanks!

Subject: Starwood Completeness Determination

John,

I have completed my review of the information the District currently has received for the proposed 120 MW peak demand power plant for Starwood Power - Midway, LLC (Facility C-7286, Project 1063535). With the exception of a few minor issues that we have previously discussed, it looks like the District has everything it will need to deem the applications complete. I will draft a completeness letter for this project and submit it for review and signature by management. My supervisor is off today and our entire office is closed tomorrow, so it is not looking like the letter will get mailed until next week sometime. Please let me know if you have any questions or need additional information. Thanks!
