PROJECT TITLE: Highgrove(HP)

<input checked="" type="checkbox"/> Telephone	916-996-9349	<input type="checkbox"/> Meeting Location: Phone Call
NAME:	Robert Worl	DATE: 12/ 22/06
		TIME: Afternoon
WITH:	John Carrier, Project Manager, CH2M Hill	
SUBJECT:	Borings at Highgrove Project Site	
COMMENTS:		

Staff spoke with John Carrier, CH2M Hill project manager for the Highgrove Project. Mr. Carrier called to ask that staff clarify a topic that had been discussed at the workshop. He said that another project representative had notes that indicated that we had asked that an archaeologist review boring logs. He also thought that we had asked for a copy of logs for previous borings. Staff clarified that we had a copy of logs of previous borings.

Staff also clarified our previous data request. The data request asked that an archaeologist be present to observe soil from borings, **if additional** borings are completed for the project. Observation of the boring cores would be a useful tool to identify archaeological sites that might be present below the ground surface. John said that he now understood the request.
