DATE	<u>JUL 27 2007</u>
RECD.	<u>JUL 27 2007</u>

**To participate in the meeting by telephone,
please call: 1-800-988-9402 by 10:00 a.m.
Passcode: 35775
Call Leader: John Kessler**

Purpose

The Energy Commission Staff is currently analyzing the city of Victorville's Application for Certification (AFC) for the proposed development of the Victorville 2 Hybrid Power Project. Staff has provided the applicant one set of Data Requests dated June 22, 2007. In this workshop scheduled for August 8, 2007, it is expected the primary topics of discussion will be in the technical areas of air quality and water resources. The staff workshop will focus on information as provided in city of Victorville's Data Responses dated July 23, 2007 and work toward resolving project issues. Staff's Data Requests and the city of Victorville's Responses can be found on the Energy Commission's website: <http://www.energy.ca.gov/sitingcases/victorville2>. As part of the water resources discussion, staff, the applicant and various water agencies will also be discussing information needed to support the water supply assessment associated with the project.

Following the workshop, staff will consider the comments it receives and will publish a Preliminary Staff Assessment containing its initial recommendations on the proposed project.

**PROOF OF SERVICE / REVISED 10/14/07) FILED WITH
ORIGINAL MAILED FROM SACRAMENTO ON 7/27/07**

rs

Background

On February 28, 2007, the city of Victorville submitted an AFC to construct and operate the 563 megawatt (MW) Victorville 2 Hybrid Power Project. The project involves a hybrid mix of natural gas-fired combined cycle generating equipment integrated with solar thermal generating equipment. Construction of the proposed Victorville 2 facility would require three areas that total 388 acres, located immediately north of the Southern California Logistics Airport which is the site of the former George Air Force Base. Including the land required for the solar collectors, the footprint of the power plant would require grading of approximately 338 acres, and construction laydown would require two separate temporary areas of 20 and 30 acres each. The project site is situated approximately 3.5 miles east of Highway 395 and approximately 0.5 mile west of the Mojave River. The Energy Commission is responsible for reviewing and ultimately approving or denying all applications for thermal electric power plants, with a generating capacity of 50 MW or greater, proposed for construction in California.

Public Participation

The Energy Commission's Public Adviser's Office provides the public with assistance in participating in Energy Commission activities. If you want information on how to participate in this proceeding, please contact the Public Adviser's Office at (916) 654-4489 or toll free at (800) 822-6228, by FAX at (916) 654-4493, or by email at pao@energy.state.ca.us. If you have a disability and require assistance to participate, please contact Lou Quiroz at (916) 654-5146 at least five days in advance.

Questions and Access to Information

General information and documents on the proposed project are available on the Energy Commission's website at <http://www.energy.ca.gov/sitingcases/victorville2>. Please direct all news media inquiries to Claudia Chandler, Assistant Executive Director, at (916) 654-4989 or email mediaoffice@energy.state.ca.us. For general or technical questions on the subject matter, please contact John Kessler, Project Manager, at (916) 654-4679 or email jkessler@energy.state.ca.us. If you are unable to attend the workshop, written comments may be sent to the staff's project manager electronically or to the Energy Commission's street address shown on the letterhead of this Notice.

DECLARATION OF SERVICE

I, Dora Gomez, declare that on July 27, 2007, I deposited copies of the attached Notice of Data Response & Issue Resolution Staff Workshop for the Victorville 2 Hybrid Power Project (07-AFC-1) in the United States mail at Sacramento, California with first-class postage thereon fully prepaid and addressed to those identified on the Proof of Service list above.

OR

Transmission via electronic mail was consistent with the requirements of California Code of Regulations, title 20, sections 1209, 1209.5, and 1210. All electronic copies were sent to all those identified on the Proof of Service list above.

I declare under penalty of perjury that the foregoing is true and correct.

Dora Gomez
