RE: Docket No. 03-RPS-1078  
CEC-SEP-1, CEC-SEP-2, and CEC-SEP-3 Data Requests  
For CalRENEW and Green Volts renewable projects and  
Application for Confidential Designation

Dear Mr. Blevins,

In response to the application for SEP funds of two parties with whom we are developing renewable contracts, CalRENEW-1 LLC ("CalRenew") and Green Volts, Inc. ("Green Volts"), Pacific Gas and Electric Company ("PG&E") is providing documents, CEC-SEP-1, CEC-SEP-2, CEC-SEP-3, SEP worksheets, an advice letter submitted to the California Public Utilities Commission ("CPUC") and a request for confidential designation. All of the materials, including the advice letter, have been provided electronically, on two CD-ROMs, as well as in hardcopy.

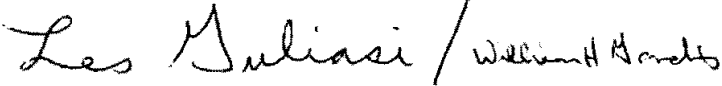

CalRenew and Green Volts are solar photovoltaic projects with 20 year power purchase agreements currently being reviewed by the CPUC. CalRenew is a 5 megawatt (MW) project near Mendota, California that will generate approximately 9 gigawatt hours (GWh) per year beginning no later than April 30, 2009. Green Volts is a 2 MW project near Byron, California that will generate approximately 5 GWh per year beginning no later than September 1, 2008 for the first MW and September 1, 2009 for the second MW.

PG&E seeks confidential designation of all the information within the documents CEC-SEP-1 and CEC-SEP-2; portions of the document CEC-SEP-3 (Utility); portions of the CEC's "SEP/MPR" and "SEP 10-20 year Equivalent Calculation" worksheets; and all of the unredacted material included in PG&E Advice Letter No. 3074-E to the CPUC requesting approval of the CalRENEW and Green Volts contracts.
