Dear Librarian:

DOCUMENT HANDLING FOR THE SAN GABRIEL GENERATING STATION PROJECT, SUPPLEMENT TO APPLICATION FOR CERTIFICATION (07-AFC-2)

On April 13, 2007, the San Gabriel Power Generation, LLC submitted an Application for Certification (AFC) to construct and operate the San Gabriel Generating Station Project in the city of Rancho Cucamonga, San Bernardino County. We provided your library a copy of the AFC in a previous mailing dated April 20, 2007. On June 4, 2007, we provided a supplement to the AFC. Enclosed with this cover is a copy of additional supplemental information to the AFC. Please file this second supplement with the original AFC and first supplement, along with the enclosed letter to the public.

Thank you for your cooperation. If you have any questions, please contact Stanley Yeh, Energy Commission Project Manager at (916) 651-8843, and e-mail syeh@energy.state.ca.us, or Terry Piotrowski, Project Secretary at (916) 653-4677, and e-mail tpiotrow@energy.state.ca.us.

Sincerely,

A handwritten signature in black ink, appearing to read "Roger E. Johnson".

Roger E. Johnson, Manager
Energy Facilities Siting and Compliance Office

To: MEMBERS OF THE PUBLIC**DISTRIBUTION OF SUPPLEMENTAL INFORMATION FACILITATING PUBLIC PARTICIPATION IN THE REVIEW OF THE SAN GABRIEL GENERATING STATION PROJECT, APPLICATION FOR CERTIFICATION (07-AFC-2)**

On April 13, 2007, the San Gabriel Power Generation, LLC submitted an Application for Certification (AFC) to construct and operate the San Gabriel Generating Station (SGGS) Project, a combined cycle electrical power plant facility, in the city of Rancho Cucamonga, San Bernardino County. A copy of this AFC was previously provided on April 20, 2007. On May 21, 2007, supplemental information to the AFC was provided to satisfy the Energy Commission's informational requirements. The Energy Commission accepted the AFC with the supplemental information as complete on May 23, 2007. The Energy Commission staff has now begun the data discovery and analysis phases of the proposed project's 12-month licensing process.

On August 17, 2007, the San Gabriel Power Generation, LLC submitted an additional supplement to the AFC describing changes made to the proposed combustion turbine generators (CTGs) and auxiliary boiler stack. The original equipment included two 180-MW (nominal) natural gas-fired CTGs. The proposed project will now include two CTGs rated at 190 MW each. The capacity of the proposed plant will have the ability to generate up to 735 MW. However, the applicant intends to limit output to 696 MW.

Energy Commission's Facility Certification Process

The Energy Commission is responsible for reviewing and ultimately approving or denying all applications to construct and operate thermal electric power plants, 50 megawatts (MW) and greater in California. The Energy Commission's facility certification process carefully examines public health and safety, environmental impacts, and engineering aspects of proposed power plants and all related facilities, such as electric transmission lines and natural gas and water pipelines. The Energy Commission is the Lead Agency under the California Environmental Quality Act (CEQA), although it produces several environmental and decision documents rather than an Environmental Impact Report.

Public Participation

Over the coming months, the Energy Commission will conduct a number of public workshops and hearings to determine whether the proposed project should be approved for construction and operation and under what set of conditions. These workshops will provide the public, as well as local, state and federal agencies the opportunity to participate in reviewing the proposed project. The Energy Commission will issue notices for these workshops and hearings at least 10 days prior to the meeting. If you are not currently receiving these notices and would like to be placed on the mailing list, please contact Terry Piotrowski, Project Secretary at (916) 653-4677, or by e-mail at tpiotrow@energy.state.ca.us.

If you desire information on participating in the Energy Commission's review of the proposed project, please contact the Energy Commission Public Adviser's Office at (916) 654-4489, or toll free in California at (800) 822-6228, or by e-mail at pao@energy.state.ca.us. Please direct your technical or project schedule questions to Stanley Yeh, Energy Commission Project Manager at (916) 651-8843, or by e-mail at syeh@energy.state.ca.us. News media inquiries should be

directed to Assistant Director, Claudia Chandler, at (916) 654-4989, or by e-mail at mediaoffice@energy.state.ca.us. The status of the proposed project, copies of notices, an electronic version of the AFC and supplement and other relevant documents are also available on the Energy Commission's Internet web site at <http://www.energy.ca.gov/sitingcases/sangabriel>. You can also subscribe to receive email notification of all proposed project related activities and availability of reports by subscribing to the List Server at <http://www.energy.ca.gov/listservers>.

Please retain this letter with the additional supplemental information to the AFC. Thank You.
