RE: Application for Confidentiality
SEP Application Data Response,
Docket No. 03-RPS-1078

DOCKET	
03-RPS-1078	
DATE	SEP 24 2007
RECD.	SEP 24 2007

Dear Mr. Romo:

On August 24, 2007, GreenVolts, Inc., filed an application for confidentiality with the California Energy Commission (Energy Commission) as part of its request for supplemental energy payment (SEP) funds. Specifically, GreenVolts is seeking a designation of confidentiality for certain SEP documents. As part of this process, GreenVolts is entering into a renewable energy contract with Pacific Gas & Electric (PG&E). On August 20, 2007, PG&E also submitted SEP documents seeking a designation of confidentiality. Unfortunately, PG&E's confidentiality application was found incomplete, and a deficiency letter was sent requesting additional information.

It is the Energy Commission's intent to review the confidentiality applications and SEP information provided by both PG&E and GreenVolts in its evaluation process in order to cross-reference and validate information. Consequently, the Energy Commission cannot begin its review of the GreenVolt confidentiality application until PG&E's application is complete. We apologize for any inconvenience, but we expect to have a decision regarding your confidentiality application within the month. If you have any questions concerning this matter, please contact Fernando De Leon, Senior Staff Counsel, at (916) 654-4873.

Sincerely,

B. B. BLEVINS
Executive Director
