RE: Application for Confidentiality
SEP Application Data Response,
Docket No. 03-RPS-1078

DOCKET	
03-RPS-1078	
DATE	OCT 01 2007
RECD.	OCT 01 2007

Dear Mr. Barnes:

On September 14, 2007, Cleantech America LLC (Cleantech) filed an application for confidentiality with the California Energy Commission (Energy Commission) as part of its request for supplemental energy payment (SEP) funds. Specifically, Cleantech is seeking a designation of confidentiality for certain SEP documents. As part of this process, Cleantech is entering into a renewable energy contract with Pacific Gas & Electric (PG&E). On August 20, 2007, PG&E also submitted SEP documents seeking a designation of confidentiality. Unfortunately, PG&E's confidentiality application was found incomplete, and a deficiency letter was sent requesting additional information.

As part of its evaluation process, the Energy Commission will review the confidentiality applications and SEP information provided by both PG&E and Cleantech in order to cross-reference and validate information. Consequently, the Energy Commission cannot begin its review of the Cleantech confidentiality application until PG&E's application is complete. We apologize for any inconvenience, but we expect to have a decision regarding your confidentiality application within 30 days of this letter. If you have any questions concerning this matter, please contact Fernando De Leon, Senior Staff Counsel, at (916) 654-4873.

Sincerely,

A handwritten signature in black ink, appearing to read "B. B. Blevins".

B. B. BLEVINS
Executive Director
