<b>SUBJECT:</b>	Socioeconomics Mitigation Measures

 Staff called and left a VM for Doug Davy on November 2, 2007 at 9 am.  
 Doug Davy called staff at 10 am on November 2, 2007. The following is a record of conversation for the phone call.

Staff requested clarification from Doug on socioeconomic mitigation measures as the AFC Volume one, section 5.10.4 states there are no mitigation measures proposed and AFC Volume two, section 5.10 "Results and Conclusions" states no significant adverse impacts are expected as a result of this project after proposed mitigation measures are implemented.

Doug stated there are no proposed mitigation measures as there are no significant adverse impacts associated with the project; therefore the first test of environmental justice is not passed. The wording in "Results and Conclusions" is in error as there are no unmitigated impacts and therefore no proposed mitigation measures for socioeconomics.
