

**Notice of Decision by the California Energy Commission**

To: California Resources Agency  
1416 9th Street, Room 1311  
Sacramento, CA 95814

From: California Energy Commission  
1516 9th Street MS-2000  
Sacramento, CA 95814

**Subject:** Filing of Notice of Decision in compliance with Public Resources Code Section 21080.5 and Title 20, California Code of Regulations, Section 1768

**Project Name:** USE OF AMMONIA AS A REFRIGERANT AT THE GATEWAY GENERATING STATION

**Energy Commission Docket Number:** 00-AFC-1C

**Energy Commission Contact Person:** Ron Yasny Telephone: 916-651-1227

**Project Location:** 3225 Wilbur Ave., Antioch, Contra Costa County, California

**Project Description:** Approval of the Pacific Gas and Electric Company Petition to use anhydrous ammonia as refrigerant for the inlet air chiller at the Gateway Generating Station.

On December 5, 2007 the California Energy Commission approved the above-described project pursuant to a regulatory program certified by the California Secretary of Resources under Section 21080.5 of the California Public Resources Code.

1. The project will not have a significant effect on the environment.
2. No mitigation measures were made a condition of approval of the project.
3. A statement of Overriding Considerations was not adopted for the project.

The Commission's docket files containing the final Commission Decision and other information regarding the project are available to the public at: California Energy Commission, 1516 9th Street, Sacramento, California, 95814. The final Decision and other information regarding the project are also available on the Commission's web site--[www.energy.ca.gov](http://www.energy.ca.gov).
