Subject: 2008 Building Energy Efficiency Standards Docket # 07-BSTD-1

I respectfully suggest that you look up the definition of Facist. The CA legislature has created a power problem with their over-regulation and now apparently seeks to impose draconian controls on the electorates' lives to deal with the problem you have created. It also seems you want our schools to create students who are currently retarded by any definition so you can all remain in power.

Who works for who here?
