Subject: Title 24 proposed 2008 revision

DOCKET	
07-BSTD-1	
DATE	JAN 9 2008
RECD.	JAN 10 2008

Dear Mr. Gekas:

My husband and I are appalled by this proposed revision to Title 24. This not only invades our home but also encourages people to not purchase energy efficient heaters / A/C because they are opposed to this type of controll. Voluntary conservation is acceptable but do not invade our homes. We are capable of controlling ourselves and our homes. This is total invasion of our lives. If someone is so inclined to overuse then they are also willing to pay for it. Hit people in their wallets not in their homes.

If you continue with this mindset, it appears to be very reimicent to a communistic proposal. Keep our freedoms intact.

Respectfully,
Mr. & Mrs. Wm. Anderson
