**Date:** 1/10/2008 8:41 AM  
**Subject:** 2008 Building Energy Efficiency Standards

This email is to inform you that I have been advised of your intent to take control of my home thermostat through your 2008 Building Energy Efficiency Standards. This move on your part is totally unacceptable and validates the transition for California government to a Marxist State. This action on your part should and will send a shock wave across America as to government out of control.

Part of your justification is the growing population. Well, lets just enforce (and I mean enforce) the illegal alien situation and this will drastically reduce demands on our energy. The government needs to perform and enforce the laws on the books to protect our freedom. Evidently you Commission is out of control and now needs to be put into check. I am currently making sure as many people know about your invasion of our rights, lives and freedom as possible to stop you in your tracks.

I also notified Rush Limbaugh and this information was broadcast on his radio show January 9, 2008.
