Just wanted to let someone know that the State has no business controlling our thermostats!!

What kind of a joke is this?

I've tried to actually speak with someone from the Commissioner's office -- but to this point have only been able to leave VM -- and no one has returned my calls. This afternoon, I spoke with two people -- and neither one had any idea about this proposal!!

I'm thinking that the Energy Commissioner's office is filled with a lot of "DMV" types!!
