California Energy Commission:

Are you people insane? Where do you think you are? In the Soviet Union?

We are getting insane legislature like not smoking in parks, letting little girls have abortions without parents' consent, regulating what we eat, light bulbs, etc. while people are getting killed in our streets by gangs peddling drugs! Our state is bankrupt because we have millions of illegal aliens consuming our social services, but now you want to control the temperature in our homes?

Except for the filthy rich. I don't know anybody who wastes energy.

Go after **Barbra** Streissand who keeps her **Malibu** mansion lit up at night as if it were daylight! Leave the poor peasants alone! Are you trying to force an angry revolt by Californians? I'm telling you guys, you are going too far this time!
