Caveats: NONE

NO WAY!!!!!!!!!!!!!!!!!!!!!!!!!!!!

I don't allow the government to monitor what I do in my home and there is no way in HELL I'm going to allow ya'll. I can modify any FM or remote control device and I will if one is installed, to not tell y'all anything and I will only allow it to manually change settings from the control itself or it will be removed and one that does what I want will be installed.

Y'all don't have the right. So piss off and may you BURN IN HELL!

Ralph
