RE: Docket No. 07-BTSD-1

You people are totally sick!!!!??? This is private property and services that people pay for, y o have no business interfering in that!!!!? If you want to make the system more efficient and cleaner for the environment then build more? nuclear plants and update the old electric plants but do not try to tell other people what to do with their own property!!!! In fact if you people would stop messing around trying to tell others how to live and regulate everything we do then there would not be a problem in the first place!!

This is offensive to me.? I do not live in California but what you people do has an effect on the rest of the country I therefore urge you to come to your senses and reject this awful piece of legislation!

Thank you

Steve Cella
