Subject: DOCKET No.07BTSD-1

To Whom It May Concern:

I would like to object to the idea of putting government entities in charge of the heating and cooling of our homes.

If the government wants to control the use of energy, I suggest they put their controls on government buildings. I have found them to be exceedingly cold in the summer and too hot in the winter.

I believe people will respond to energy needs when necessary without the government taking control of our thermostats.

File me in "Against" DOCKETNo.07BTSD-1.

Thank you.
