DOCKET
07-BSTD-1

RECD. JAN 14 2009

Dear California Energy Commission,

I write regarding your recent plans to regulate electricity use among customers (Docket No. 07-BTSD-1, cf. <http://www.wnd.com/news/article.asp?ARTICLE-ID=59639>), This is just communism and socialism rearing their ugly heads as civil governmental agencies seek to control more of the private citizens' lives. This regulation will not solve any problems but create even more. Can you not see this whole energy crisis could have been abated had the free market been allowed to operate unobstructed regarding energy production? I implore you to permit the building and operation of more power plants which will create more jobs and economic growth and alleviate the lack of energy supply.

Mr. Nathan Stevens
