**Subject:** PCT?

I read this article: [http://www.americanthinker.com/2008/01/who\\_will\\_control\\_your\\_thermostat.html](http://www.americanthinker.com/2008/01/who_will_control_your_thermostat.html)

It talks about a PCT that allows the government to control your thermostat. Is this for real? It almost sounds like a hoax. You can be sure that if this is for real and it passes I will not vote for anyone who supported it. I'm pretty sure the rest of the state will feel similarly. I'm a busy person with not a lot of time for this kind of thing otherwise I would write a lot more about how this intrusion is completely un-American and insane.

Thank you,

Brian Pettigrew
