Hi Mark,

I'll shortly fax you part of the map showing that area. We have topo sheets that show the various boundaries (coastal zone, area of the Commission's retained jurisdiction, and appeal jurisdiction), but we don't have them in electronic format. I'll note on the fax which boundary is which.

Hope this is what you're looking for -- please let me know if you have questions or would like more information.

Tom L.

Subject: California Coastal Commission Post-LCP Certification Permitand Appeal Jurisdiction Area For Humboldt Bay

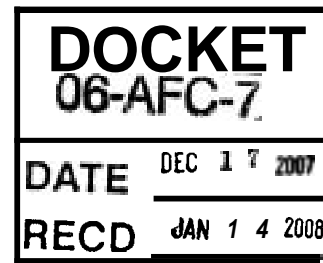

Tom.

Good afternoon. I work for the California Energy Commission in the Environmental Protection Office. I am working on the staff assessment for the proposed Humboldt Bay Repowering Project.

I am attempting to obtain a copy of the adopted "Post-LCP Certification Permit and Appeal Jurisdiction" map denoting the California Coastal Commission's permit jurisdiction within the Humboldt Bay area (Humboldt County). Specifically, a map that shows Buhne Point, a peninsula that protrudes into Humboldt Bay at the bay's mid-point. It is where the 143-acre PG&E property which contains the Humboldt Bay Power Plant and the site of the proposed Humboldt Bay Repowering Project are located. Could you help me or direct me where I can obtain a copy of the jurisdiction map.

Thank you,

Mark R. Hamblin
