Subject: Docket No. 07-BTSD-1

Crappy schools, crappy roads, high taxes, fiscal insolvency, dishonest politicians & politicians who hunger to regulate & control every phase of our personal lives. This is California in the 21st century & now the idiot bureaucracy wants to put their invasive hands on my thermostat. Not a good idea to come into my home uninvited folks. Here's an idea - GENERATE MORE POWER!

D. Aldous
