Sorry, I misspelled again.. Actually, your name in my SF Chronicle was written in very very small italics.

Subject: hone thermostat control

For a state that prides itself on recognizing diversity, I'm appalled that my (birth state and where I still live, vote and pay taxes) should even consider this plan. What about the numerous senior citizens who reside here and have no more body control over their inner temperature than a reptile?.

This would cause undeserved suffering,. It certainly would impact the fragile Health Care System,

Thanks so much for your attention.

Most Sincerely,
Barbara Stanton

Barbara Stanton..
