Subject: Title 24

You can forward this to anyone that you choose:

I'd like to express my displeasure with the Energy Commission's proposed revisions to Title 24, to wit: installation of addressable thermostats in California homes.

I AM the ONLY power authority on MY property until the State 1. Pays my mortgage 2. Pays my property taxes 3. Pays my utility bills

If I make repairs to my systems and such thermostat is installed, you can bet that the legislature will be getting a box of crushed parts back in the mail.
