Subject: "smart thermostats"

DOCKET	
07-BSTD-1	
DATE	JAN 12 2008
RECD.	JAN 15 2008

Dear CEC,

I am writing to tell you that I am opposed to the "smart thermostats" option of the 2008 Energy Efficiency Building Standards Docket. I am a proponent of voluntary smart thermostats as well as other programs to address the issue, but having this as a requirement by law is not the answer.

I appreciate your consideration.

Regards,
Mr. Adrian Pancamo
San Francisco
