Subject: Fwd: Thermostat Control

>>> <bejones99@att.net> 1/14/2008 1:18 PM >>>

We are opposed to changes to Title 24 which would require special thermostat controls that would allow state government in Sacramento to override a person's thermostat settings for heating or air conditioning. We do not need the government controlling every facet of our lives. How does Sacramento know who has specific health problems that require warmer or cooler temperatures? This is a ridiculous and unnecessary intrusion into private homes or into businesses for that matter.

Mr. & Mrs. Gene Jones

Gridley, CA
