Subject: Fwd: Control over thermostats

DOCKET	
07-BSTD-1	
DATE	JAN 15 2008
RECD.	16 2008

>>> "Hern, Richard" <RHern@semprautilities.com> 1/14/2008 2:39 PM >>>
I am opposed to mandatory utility control of thermostats, SMART or otherwise. If I wish or need to set the temperature in my house to a specific degree, I do not want some government mandated controller, either the local utility or a government entity, to be able to over ride my choice.
If California needs more energy or more efficient energy usage, then let the consumer decide, not some dumb government official.
