Jackalyne Pfannenstiel

Dear Jackalyne Pfannenstiel:

Requiring homeowners to install a thermostat that can be adjusted by government bureaucrats???? What are you folks thinking? Stop this government intrusion into our own homes, please!!

Californians already rank 50th among the 50 states in our per capita consumption of electricity. The average Californian uses about half the electricity as the average American, and less than consumers in Luxembourg, Guam, the Cayman Islands and Aruba.

Stop the expansion of the government nanny state. Oppose the government controlled thermostats in our own homes.

Sincerely,

Lynn E. Rickard
