Jackalyne Pfannenstiel

Dear Jackalyne Pfannenstiel:

How irrational is this idea requiring homeowners to install a thermostat that can be adjusted by government bureaucrats.

Californians already rank dead last among the 50 states in our per capita consumption of electricity. The average Californian uses about half the electricity as the average American.

P.S. You probably believe the false religion that CO2 causes Global Warming. Well read up on your science. CO2 is NOT a factor. Global Warming and Cooling is a nature science. So get over the "earth is flat" theory!

Sincerely,

Thomas Teichmann
